### SUMMARY

---

Experienced **senior full-stack developer** who has been mainly focusing on software development including web and mobile applications; worked at 3 international IT companies and built 30+ software products for people all over the world during the last 8 years; **active learner** who loves learning new technologies; have proficient experience in **blockchain engineering** and crypto currencies as well for DeFi applications; certainly guarantee the quality of work and be eager to brainstorm a new idea with teammates; to provide more successful products that people would prefer is the goal.

### PROFESSIONAL EXPERIENCE

---

#### Senior Frontend Developer & Blockchain Engineer

Oct 2021 – Apr 2023

PowerUSD, LLC

San Francisco, California, United States

- Developed 12+ smart contracts on Ethereum/Binance networks and integrated with frontend using web3
- Created 8+ smart contracts for NFT tokens and sales on Binance/Polygon
- Ensured quality standards through regular code reviews of contractor's codebase contributions
- Using the solidity framework features, optimized the smart contract program and boosted performance by 22%
- Designed, created 10+ web/mobile apps for frontend interface and integrated 3rd-party APIs with a backend team
- Optimised 15+ apps to enhance performance, assisted in building 100% reusable code and libraries for future use
- Supervised, led, and mentored 8 junior team members to achieve high performance and meet their goals

#### Full Stack Engineer

Oct 2018 – Oct 2021

Golden Hippo

Woodland Hills, California, United States

- Designed, innovated, and modified 25+ software systems and custom components
- Defined 30+ new software solutions by analyzing system performance standards
- Planned, tracked, and managed deliverables on 200+ short-term sprints and 50+ long-term deployments
- Integrated existing software into 13 upgraded systems for higher performance and rose up their profits 18%
- Collaborated with external programmers to coordinate delivery of 7 new software applications

#### Web | Mobile App Developer

May 2017 – Oct 2018

Coding Dojo

Dallas, Texas, United States

- Provided customer-first priority, fixed bugs, and maintained a 99% SLA for response/resolution times
- Participated 8 successful (on schedule and budget) agile development projects (5 web apps + 3 mobile apps)
- Initiated unit testing to web/mobile apps using Mocha/Jest/PHPUnit frameworks, and boosted code quality to 94%
- Implemented and maintained 30+ REST APIs writing documentation using OpenAPI specifications
- Collaborated with 2 engineering teams on domain, design, and code testing for 12+ projects
